# HOW Does Online Therapy Work?

Using a computer, headset, webcam, and high-speed internet, your child's school is ready for online therapy with TinyEYE.

As with traditional on-site therapy, online therapy enables children to visit a therapy room and meet with the same therapist each week. Through online therapy sessions, TinyEYE therapists deliver learning experiences that are highly engaging and proven to drive student success. Therapists create a unique and modern learning environment using online tools that are both exciting and different from your child's regular day-to-day activities.

Today's generation of children were born in the electronic era - technology is their comfort zone! With that in mind, it is no surprise that both therapists and children agree that the technology behind online therapy becomes invisible, allowing the development of personal connections that transcend borders and time zones. THIS is the magic of online therapy!

## Increase in direct therapy time

A recent ASHA school survey revealed a typical, school-based therapist spends only 68% of their time providing direct therapy to students. Their remaining time is spent writing reports, developing therapy plans and, of course, traveling! Not only has TinyEYE eliminated travel time, but most of the planning and reporting has been automated, allowing therapists to spend an average of 85% of billable hours delivering direct therapy. In addition to direct therapy, TinyEYE therapists also provide:

- A detailed, customized report within 24 hours of the session, outlining the progress made.
- Remote access, making it easier to attend IEP and parent-teacher meetings, regardless of your location.
- Online backpack activities encouraging children to practice their skills between sessions.

These are the extras that result in positive gains and empower all children to reach their ultimate goal: graduating from their therapy program with the skills to thrive in their daily lives.

## TinyEYE has the experienced therapist you have been waiting for.

TinyEYE's custom online platform connects you with Speech-Language Pathologists and Occupational Therapists licensed in your region. TinyEYE employs qualified, experienced online therapists who are ideally suited to your program needs and provide the assurance of consistent, high-quality therapy sessions.

TinyEYE is proud to offer a vast team of therapists who offer specialized skills to match your child's needs, such as providing full bilingual coverage that includes assessments, direct therapy, and reporting in Spanish, French, Creole, and Dutch.

# PROVEN Effectiveness

95% Customer Retention Rate

90% Therapists Exceed Quality Standards

Canadian Association of Occupational Therapists (CAOT)

CAOT - ACE  
Canadian Association of Occupational Therapists  
Association canadienne des ergothérapeutes

# BENEFITS of Partnering

1. Full Service Provider

2. No Gaps in Services

3. Quality Control

4. Highly Effective

## 1 Full Service Provider

- 👉 Manage your child's needs from assessments, reporting, and direct therapy to classroom consultation
- 👉 Supplement your current school's therapy
- 👉 Cover your child's needs using a short term maternity and/or sick leave
- 👉 Bilingual services in Spanish, French, Creole, and Dutch

- TinyEYE therapists work to empower school staff and increase capacity while promoting a learning enriched environment for children.
- Teachers, E-Helpers, and parents are informed and given the tools to provide helpful support during school and homework activities.
- TinyEYE therapists are available to supervise E-Helpers, consult with teachers, and coach parents.
- At any time, the latest report for each child is accessible through a confidential login procedure to parents and support staff. Reports are created in real-time and are stored on our secure online site so you can see your child's progress at any time.

## 2 No Gaps in Services

- 👉 Full team of Masters Certified and Licensed Therapists
- 👉 Manage your therapy program and your needs, even as they change and fluctuate throughout the school year
- 👉 TinyEYE is 100 % accountable to your child's school
- 👉 Eliminate the stress of gaps in therapy due to surprise turnovers and unfilled vacancies in on-site staff

- TinyEYE increases therapy attendance and effectiveness among children.
- TinyEYE is continually self-evaluating and looking for ways to serve you better. Our in-house software team is consistently upgrading and improving our therapy tools and platforms, while our Dream Team continues to provide the latest in cutting edge therapy.

# 3

## Quality Control

- 👉 SLPs and OTs that are motivated, experienced, and highly productive
- 👉 TinyEYE's Confirmation of Excellence Program provides quality assurance to schools, students, and parents
- 👉 Continual improvement in a strive for excellence

- TinyEYE recognizes the value of personal connection built between therapists and children. With that in mind, therapists are hired based on their experience, background, character, skill, and spark.
- TinyEYE's Dream Team of elite therapists are dedicated to providing your children with a positive therapy experience.
- Therapists work with your school to provide student focused services that meet your needs.
- TinyEYE's award winning therapy platforms allows therapists to spend less time planning and writing reports, and more time providing an exceptional therapy experience.
- Feedback is always welcome. In fact, TinyEYE is consistently using customer feedback to elevate services and improve your overall experience.

# 4

## Highly Effective

- 👉 Teletherapy is proven to be as effective as on-site therapy. Therapists are trained to provide services through video conferencing while also focusing on student engagement
- 👉 Teletherapy is an ASHA approved service delivery method
- 👉 TinyEYE's Virtual Backpack Program facilitates skills development

- TinyEYE's custom Virtual Backpack Program contains hundreds of activities specifically designed to encourage child engagement and further the progress made during therapy sessions.
- TinyEYE's virtual programs are designed to promote learning in any environment; for continued progress, children are encouraged to login from anywhere, including home.
- Your existing therapists, teachers, and support staff are invited to use TinyEYE programming tools too! These tools have the capacity to record video-clips, write notes, and monitor how children are accessing their homework.

# START

## Therapy Services

### Initial Meeting

A TinyEYE representative will meet with your Special Education Team to discuss your speech and language goals, as well as any special requirements your child may have. The goal of this meeting is to create a plan that supports the overall therapy goals of both the school and the child.

### Service Agreement

This signed agreement is not binding as there are no minimum or maximum contract lengths required; this document must be signed before therapy services can begin. Your child's school will receive a monthly invoice for therapy services used.

### Student Planning & Scheduling

TinyEYE works with your school to determine the number of children requiring assessments and direct therapy. This information will be used to develop individual therapy plans, including a schedule that is uniquely designed to meet the individual needs of each child.

### Consent for Therapy

TinyEYE works within your school's policies to ensure appropriate measures are followed regarding consent for the sharing of confidential information. Prior to receiving therapy, each child is sent a consent form that must be signed by a parent or guardian and returned to TinyEYE.

### Technical Check

TinyEYE completes a 'tech check' with your school's support staff to confirm all technical components are in place; also confirming school staff are comfortable logging into sessions and accessing reporting tools to support your child.

# TESTIMONIALS

"I think online therapy is a great concept. I was overly impressed with the assessment [My son] felt so special and really made a connection. I almost cried...it is not easy to get him out of his non-talking zone. I absolutely want to continue services!"

-Rebecca,  
TinyEYE Parent

"We are so thankful for this service! We are a large family and having this option online is so helpful!"

- Lorianne,  
TinyEYE Parent

"TinyEYE worked very hard - providing technical support and assigning us with the appropriate therapist to suit [my son's] needs - they worked beautifully with my family. There has been a clear improvement in [my son's] speech... I strongly recommend TinyEYE moving forward."

-Patrice,  
TinyEYE Parent

"My oldest son found traditional speech therapy to be very tiresome. [He] was really motivated for online speech therapy; each session only takes 20 minutes and he has rapidly progressed. My youngest son now attends therapy sessions twice a week for 20 minutes each time and we see a clear progression."

-A Happy TinyEYE Mother

"TinyEYE made it so I could understand where [my son] is at - [I've] never had it broken down like that before. Thanks again for all of your help."

-Sherri,  
TinyEYE Parent

## THANK YOU for considering TinyEYE Therapy Services!

TinyEYE's dream is that no child will be left without the therapy services he or she deserves.

Together we are growing smiles, mending spirits, and engaging children in their lives.
