

Instructions

2023-2024 Summary Tab

The implementation of STIP days and the reduction of minimum instructional hours has provided opportunities for more flexible and creative school calendars, not easily represented with the previous school calendar template. The 2023-2024 calendar template has been revised to maintain the "at a glance" coloured school year calendar and to provide increased accuracy in the calculation of instructional hours.

How are the total instructional hours calculated?

The 2023-2024 Summary autopopulates from totals in the 2023-2024 Calendar Tab, Non-Instructional Min. Summary and the Outside Instructional hrs tab to calculate the total instructional hours.

Total instructional hours = (Sessional Days x instructional hours/day) + Instructional Hours outside the regular school day - Non-Instructional hours

This Summary tab will autopopulate

2023-2024 Calendar Tab

Colour coding your school calendar:

1. Look at the table located in the cells AV-BE
2. Select the coloured cell/square that reflects your need (ie. if you have a full day of STIP time, but it is divided between collaborative and individual, then you would select the cell that is half blue and half brown.
3. If your school calendar has an early dismissal, and it is not the equivalent of a half day, please use the coloured cell that reflects a quarter.

Note: If you use the "Other" category in the calendar, please include details in the note column of the Non-Instructional Minutes tab

Instructional Minutes/Day

1. Indicate the instructional minutes for the morning (am) and afternoon (pm). Please remember that breaks/recesses are not to be included in the instructional minutes.
2. The breakdown is significant because a school day is generally not divided equally between AM and PM. This is required for an accurate calculation of instructional minutes.
3. If your school spans grades that have different instructional minutes/day but the school calendar pertains to all grades, please use the instructional minutes for Gr. 1-6 to calculate the total instructional hours. In the notes section to the right you may include any variation on the instructional minutes for JK, K or Grades 7 - 12.

Non-Instructional Minutes (Min) Summary

1. Only include minutes that are non-instructional (i.e., STIP, PD, Administration days, Inservice, Cultural Orientation, etc.)
2. 3-way student conferences / home visits can be included under the "other" category. Please specify in the "notes" column. If they are considered contact hours, under the minutes column list "0".
3. Note: Do not include holidays, statutory holidays or breaks in this summary.

Outside Instructional Hours

1. Only include hours that meet the criteria for outside instruction hours (Time/activities must be intended for the whole school and be based on curricular outcomes.)
2. Note: The maximum allowed number of outside instructional hours is 45 h

2023-2024
INSTRUCTIONAL TIME/ACTIVITIES OUTSIDE OF THE REGULAR SCHOOL DAY HOURS
(Maximum 45 hours)

The Department of Education, Culture and Employment recognizes that whole school instructional time/activities may take place outside of regular school hours. These instructional time/activities may occur during early mornings, evenings or weekends.

- Time/activities must be intended for the whole school and be based on curricular outcomes.
- Use the table below to indicate instructional time/activities that occur outside of the regular school day.

Date	Number of Hours	Description of Activities	
01-Sep-23	1	Feeding of the Fire	
23-Nov-23	2	Home Visits	
19-Dec-23	2	Christmas Open House (Voluntary)	
08-Feb-24	2	Three-way Conferences	
25-Apr-24	2	Three-way Conferences	
TOTAL HOURS	9
