Education Act Modernization

TCSA and Tłı̨chǫ Government are working together on one consultative process for the region.

- ***The GNWT and Tłı̨chǫ Government commit to a collaborative drafting process for the Education Act modernization, similar to the Intergovernmental Council legislative development protocol process.***
- ***The GNWT and Tłı̨chǫ Government commit to have further discussion on legislative drafting at the Modern Treaty and Self-Government Partners forum.***

ECE looks to be working on a phased approach for changing the Education Act.

ECE is working to finalize its Legislative proposal and has committed to direct consultation with Education bodies on the proposed amendments

Curriculum Renewal

After consultation across the territory the GNWT announced that it would be partnering with British Columbia moving forward to transition to the progressive curriculum offered in BC that is both competency based and strongly influenced by Indigenous worldviews, knowledge, and perspectives. The territory will keep locally developed courses (such as Gonawok'e and Tlıcho Agreement) and will continue to use Dene Kede as its foundational curriculum documents.

In the 'What we heard report' the timeline reports that the GNWT is currently in the 'implementation planning' phase till June 2022, when the phased-in approach will begin next September 2022 but we are not expecting changes to the curriculum for students until the following year.

Meetings were held between ECE and Education Bodies on October 11th and 28th. More information was provided around some proposed changes. We are continuing working with ECE; no further sessions are scheduled at this time.

CJBS Rebuild

The Tłıchǫ Government and the GNWT made the following commitment:

“The GNWT and Tłıchǫ Government commit to work together to explore funding options and lobby the federal government to secure funds, for a new build of the Chief Jimmy Bureau School in Behchokò”.

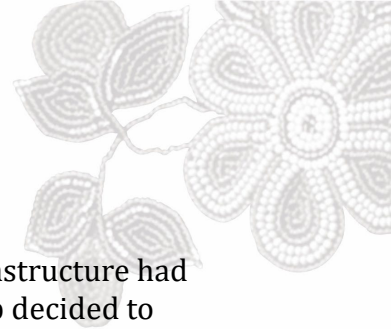

The Tłıchǫ Government and the Tłıchǫ Community Service Senior Staff met with the Assistant Deputy Minister, Corporate Services, and team to discuss the Chief Jimmy Bureau School Rebuild.

The TG/TCSA and GNWT working group agreed to the Terms of Reference and discussed next steps and moving forward in looking for funds. At this point, the Tłıchǫ Government needs to provide a vision for the new school so that steps can be made to look for funds to build the school.

Tlıcho Government has notified the GNWT of its intention of moving forward with a super school. They have requested financial information so a working group can be established to look at possible funding sources

Tlıcho Government has engaged the community with survey regarding the new school. The survey was reviewed with the board.

The board identified the need to maintain the current school and to ensure the new school meets the needs of the community.

October 3rd, 2022, Tlicho Government, TCSA, ECE and Department of infrastructure had a meeting. Tlicho Government presented its survey results. The larger group decided to establish smaller working groups.

Mental Health & Addictions Update

The TCSA Board had a meeting with CEC on February 2, 2021. A motion was passed to work together on Mental Health and addictions.

In March of 2021 the Tlicho Assembly held a workshop to discuss mental health and addictions. At the end of the workshop, it decided to develop a community based mental health & addictions strategy. Twelve action items were identified as first steps. Tlicho Government Assembly Members proposed a funding commitment of 15 million dollars or 3 million a year for the next 5 years. The Tlicho Assembly later affirmed its decision on April 22nd, 2021 when it passed “Tlicho Loan Reimbursement Law.”

Since April, two Tlicho Government staff and one TCSA staff have been working on the twelve action items. Limited progress has been made due to Covid restrictions & Tlicho Government elections. An additional TCSA employee has been assigned to work on the initiative as of November 29, 2021.

The TCSA is assisting the Tlicho Government with organizing the Poundmakers Treatment program in Behchoko and Whati. The Behchoko program has received almost 30 applications.

The long-term goal is to have a fully integrated program with Tlicho Government. We are nearing the end of the strategic planning process and will now have to determine how to operationalize the strategy.

CYCC & Peer Support Program Update

GNWT Health and Education Minister Response to Board Chairs Concerns:

- CYCC will operate under the existing model during the 2022-2023 school years, with changes for improved job descriptions and modified reporting relationships implemented.
- A third-party consultant will undertake a detailed program evaluation and the results will inform recommendations for a new model.
- ECE and HSS will work collaboratively with education bodies and health authorities over the current fiscal year toward an alternative model. (We’ll talk more about this in detail at our September 20th NWTSA-ECE meeting, and Minister Green will join our October 4th Education Leaders meeting for a discussion on CYCC as well.

Work plan was sent to Health and Education authorities for feedback. TCSA response included a couple key areas the first being that the program evaluation should consider which department should lead the program. The second big concern was around resource allocation, specifically asking that unspent funding is given to schools. We proved feedback in a total of eight areas.

Peer Support Program

We are continuing with our plan to strengthen the CYCC program by hiring peer support workers.

The funding has been approved, Job descriptions completed, Jobs will be advertised in June and training to start once the positions are filled.

The Peer Support Program official started as of August 22, 2022. A total of 5 individuals passed screening, job interviews, and were provided job offers. Mezi has 1 position filled and 1 vacancy, CJBS and EMES each have 2 positions filled. Hiring will continue in order to fill the position at Mezi.

Positions in Gameti and Wekweeti remain vacant with expectations to fill this school year after consultation with these communities.
